IIM Udaipur RTI Data 2026

MBA 2026-28 batch (CAT 2025) with 2024-26 and 2025-27 comparison. Prepared 12 November 2026.

Key Highlights

- **10,001** candidates shortlisted for the personal interview (PI).
- **2,373** admission offers, about 24 per 100 shortlisted candidates.
- **885** candidates moved from the waitlist to an offer.
- **359** students in the class profile (353 domestic + 6 international).
- Offers per joiner fell from 8.1 (2025-27) to 6.6 (2026-28).
- General PI floor: 94 overall, 75 in each section. Final score: CAT 55, PI 25, profile 20.

1. MBA 2026-28: Shortlist, Offers, Waitlist and Class by Category

Category	PI shortlisted	Offers	Offers per 100 shortlisted	Waitlist moved	Class 2026-28
General	4,538	1,118	24.6	260	141
EWS	735	156	21.2	66	37
NC-OBC	2,436	496	20.4	207	90
SC	1,313	352	26.8	247	49
ST	685	137	20.0	29	27
PwD	294	114	38.8	76	9
Total	**10,001**	**2,373**	**23.7**	**885**	**353 (+6 international = 359)**

Offers per 100 shortlisted is a derived ratio (offers / PI shortlisted x 100). Category rows add up to the stated totals.

2. PI Eligibility Cutoff (CAT Percentile), MBA 2026-28

Category	VARC	DILR	QA	Overall
General	75	75	75	94
EWS	55	55	55	81
NC-OBC	52	52	52	81
SC	45	45	45	66
ST	25	25	30	42
PwD	25	25	30	42

Meeting the cutoff earns eligibility for further evaluation. It does not guarantee an interview call or an offer.

3. Final Selection Weightage (MBA 2026-28)

Component	Weightage
Normalised CAT 2025 score	55%
Personal interview	25%
Academic profile	6%
Work experience	6%
Diversity	8%
Total	**100%**

4. Three-Year Comparison

Metric	2024-26	2025-27	2026-28
Total offers	2,993	2,969	2,373
Class size	345	365*	359
Offers per joiner	8.7	8.1	6.6
General offers	1,468	1,484	1,118
General class	84	141	141
General joiners per 100 offers	5.7	9.5	12.6
General waitlist moved	268	332	260

**2025-27 class size is the sum of six domestic categories (141+39+111+44+23+7). The reply also mentions 4 international students; sources differ on whether they are included. Earlier replies report a 'CAP shortlist' (23,376 in 2024-26; 24,795 in 2025-27) while 2026-28 reports a 'PI shortlist' (10,001). These are different stages and are not compared.*

5. Waitlist Movement by Category

Category	2024-26	2025-27	2026-28
General	268	332	260
EWS	Not reported	58	66
NC-OBC	Not reported	176	207
SC	Not reported	236	247
ST	Not reported	30	29
PwD	Not reported	28	76
Total	**n/a**	**860**	**885**

Vacant seats after closure (2026-28), as reported by one compilation: General 2, NC-OBC 4, PwD 9 (15 in total). Not cross-checked against a second source.

6. Cutoff vs Admitted Candidates

Category	PI cutoff 2026-28	Lowest admitted CAT %ile 2024-26	Lowest admitted CAT %ile 2025-27	Lowest composite 2024-26	Lowest composite 2025-27
General	94	95.85	95.26	51.16	57.46
EWS	81	88.36	86.43	43.06	50.36
NC-OBC	81	80.43	81.20	43.76	48.38
SC	66	60.76	70.76	33.85	40.19
ST	42	43.55	43.09	30.00	33.93
PwD	42	47.62	70.63	30.46	34.34

Comparing a 2026-28 cutoff with earlier admitted percentiles is reliable mainly for General, where the PI floor has been stable near 94. Composite scales depend on each year's normalisation, so year-on-year composite changes should not be read as changes in difficulty. The 2026-28 replies we verified do not include composite-score or admitted-percentile tables. PwD figures rest on a very small base.

Key Takeaways

- About 1 in 4 shortlisted candidates received an offer.
- General offers fell about 25% (1,484 to 1,118) while the General class stayed at 141.
- Admitted General candidates sat about 1.3 to 1.9 percentile points above the 94 PI floor in the last two cycles.
- 45 of 100 final points come from outside CAT (PI 25 + profile 20).

- A General-category target of 96 to 97 percentile gives a safer margin than the 94 floor.

Sources and Notes

Compiled from IIM Udaipur RTI disclosures as published in third-party compilations (MBA 2026-28 figures cross-checked across two independent compilations; 2022-27 history from a multi-year RTI archive) and IIM Udaipur's current MBA admission policy page (mba.iimu.ac.in/admissions). All category rows were re-added to confirm they match stated totals. Ratios are calculated from the tables. RTI data describes past cycles and does not predict future cutoffs.
